CREATE MANGA FROM START TO FINISH!

tone

Thousands of Manga Screen Tones
Screen tones add dimension and character to your art, and is what manga artists use in place of color. You can add, remove, and replace screen tones with a simple drag & drop.

pen touch

Draw Naturally with a Tablet
If you use a pen tablet, Manga Studio gives you the incredible sensation of drawing on paper. You can easily make subtle line and blend corrections in real time with the built-in slider tool.

speed up

Rich Tool Palettes & Pen Tools Available
Multiple tool palettes make creating manga and comics fun and easy. Manga Studio includes all the essential features of pens, rulers, text, erasers, and shades to get you started right away.

quality up

Create Amazing Special Effects
Give life to your projects! Apply dozens of special effects, image adjustments, and transformations to express drama, action and depth in your artwork.
