

For MacBook For MacBook Pro For MacBook Pro & PowerBook G4

13" 15" 17"

Scratch Deterrent

Apple® notebook computers are as beautiful as they are powerful, but their finish is far from bulletproof. Even so, many owners choose convenience over protection—MacBook, MacBook Pro, and PowerBook G4 notebooks often travel in a backpack or briefcase sharing space with an iPod®, phone, keys, and pens—leaving their pricey cargo vulnerable to scuffs and scratches. Choose convenience and protection—get 2fit. Stylish and practical, the Sonnet 2fit sleeve is a form-fitting cover that provides a durable layer of protection that helps prevent damage to your computer's finish.

Protects and Shines. The 2fit screen protector buffers the screen from keyboard rubs during transport. And since it's made of high-quality optical cloth, it's safe for cleaning your notebook screen too.

Each 2fit sleeve is constructed of plush microfiber material, custom-tailored for specific MacBook Pro and MacBook models. This machine-washable sleeve stretches to provide a snug fit, and it even can function as a heat shield between laptop and lap when not in use as a cover. The 2fit screen protector buffers the screen from keyboard rubs during transport. Made of the finest-quality optical cloth, it is also perfect for cleaning the MacBook display. Enjoy a perfect fit in notebook protection wherever you store your MacBook—secure it with 2fit!
