

(PRELIMINARY)

HVR-1500 PROFESSIONAL HDV VTR

The new HVR-1500 professional HDV VTR is due for launch in Spring 2007. This professional half-rack size deck offers a number of features sharing many characteristics with the popular Master Series range. The HVR-1500 supports HDV1080i, DVCAM and DV recording and playback and additionally benefits from using either standard or mini-size DV cassettes. The new HVR-1500 will also feature a number of optional modules for increased workflow flexibility including:

- HD-SDI Output module
- SDI Input and Output module
- Analogue Input module (featuring component, composite, S-video and XLR audio)

KEY FEATURES INCLUDE:

Recording and playback flexibility

In addition to recoding HDV1080i, DVCAM and DV, the HVR-1500 will also playback DVCPRO 25
