[Click Here to View TLM-433 Rear View](#)

19" Rack Mountable Bank of 3 x 4.3" LCD Monitors.
Robust steel and aluminium construction. Each monitor has individual adjustments for Contrast, Brightness and Colour Saturation and 3 colour LED tally light indication.
Composite video input with loop through.
Ideal companion for SE-1000 Mixer.
Suitable for OB Van or Studio use.

As a leading manufacturer Datavideo work closely with LCD manufacturers to ensure only the highest quality displays are used and offer a guarantee against spotlight defects. The high quality professional TLM monitor series automatically switches between PAL / NTSC and for flexibility can be powered via 12 V DC or AC power.

The Datavideo TLM monitor series is designed for video professionals that insist on superior performance. After all, every professional knows that you are only as good as the tools you use. Whether it's in combination with switchers, 19" rack monitoring, in field operation, video editing, or the most advanced multimedia video you're creating, the Datavideo TLM monitor range offers the right tools for your job.
